

MG, the warmest financial institution

Since our establishment in 1963 based on Korea's distinct spirit of 'mutual help', the **MG Community Credit Cooperatives** has grown into a warm financial institution pursuing a 'people first policy' and working together with the local community.

Passing half a century, **MG** is busy preparing for the next one hundred years. We have not stopped taking on challenges against many crises and obstacles, and have become a strong pillar of support for the economically vulnerable low income people.

MG will fulfill social responsibility and meet the role assigned to us faithfully and grow as the representative 'leading financial cooperatives' in Korea.
